Profile

Second-year student in **BUT Data Science (EMS track)** and graduate of a **BTS in IT (Database option)**, with professional experience in **Data Analysis and Business Intelligence** at **Layer Data**. Skilled in **database administration and data modeling** (**SQL**, **MySQL**, **PostgreSQL**), **data processing and pipeline automation** (**Python**, **ETL**), **statistical analysis** and **business intelligence reporting** (**Power BI**, **DAX**).

Education

Since 09/2026 **BUT in Data Science (SD) — 2nd year (BUT 2)**
Statistical Exploration and Modelling track · Currently in progress · IUT Clermont Auvergne, Aurillac campus
Descriptive and inferential statistics, data visualisation, statistical modelling.

10/2022 – 01/2026 **BTS in IT — Database option**
Institut International de Management, Béjaïa — **Top of the graduating class**

2021 **High School Diploma (Baccalauréat) — Mathematics track**
Béjaïa, Algeria

Professional Experience

02/2026 – 08/2026 **Data Analyst / Web Developer**

Layer Data · *when humans meet Data* — Akbou, Algeria

- Prepared, cleaned, and transformed data using **Python** (Pandas) and **SQL** to feed a **Data Warehouse (ETL)**.
- Modeled data in **Power BI** (**Power Query**, **DAX**, star schema connecting dimensions and fact tables).
- Designed a **reporting** and **data visualisation** dashboard (**Power BI Supply Chain report**) to track **KPIs** (orders, deliveries, sales forecasts) for a **food industry client**.
- Developed a catalogue of available commercial premises and an admin portal to update listings.

09/2025 – 02/2026 **IT Technician and Manager**

Cyber Café Khatri Khelaf — El Kseur, Algeria

- Provided user support and technical maintenance for workstations and software.
- Administrative and financial management: invoice tracking and reports in **Excel**.

Personal Project

2026 **AVDA Auto — Dealership Management Application**

- Offline-first desktop application developed with **Electron**, **React** and **SQLite**.
- Centralised vehicle stock, sales lifecycle, CRM, and billing management.

Technical Skills

Databases & Administration (DBA): MySQL, **PostgreSQL**, **SQL**, user permissions, backups/restores, indexing, query optimization.
Data Analysis & Business Intelligence: Power BI, **DAX**, **Power Query**, **Python** (Pandas, NumPy), **ETL**, dimensional modelling (star schema), **KPIs** and reporting.
Statistics: R language (RStudio), descriptive and inferential statistics, **Excel** (PivotTables, data analysis).
Development & Tools: JavaScript, React, **Electron**, PHP, HTML, CSS, **SQLite**, DBeaver, **Git/GitHub**.

Languages

French and Arabic: native languages · **English:** B2 level
